The Ugly Suit

Friday, June 20, 2008, 09:20 PM GMT [[General](#)]

I cannot stop listening to the debut album by this band: The Ugly Suit

It's not due out over here for a while but it's such a fantastic record I had to write about it now. It sounds a little like a cross between CSNY, The Eagles, The Shins, Band of Horses, and who knows what else. They definitely have a sense of the "epic" about them. What I cannot get over is how young these guys are - they all look like they're barely out of school yet are making such a mature and defined album.

Anyways... check it out. Let me know what you think.

Industry Nobody works for a major record label, but wishes to remain anonymous
